TECHNICAL SPECIFICATIONS

- Dimensions in mm. (WxHxD): 2x 61x40x100
- Weight in grams: 2x 186
- Data transfer speed: 500Mbps (maximum under optimal conditions)
- Standardization: IEEE802.3 and IEEE802.3u Ethernet
- Encryption: 128-bit AES link encryption with key management
- Interfaces: Ethernet RJ45 (MDI/MDI-X) 10/100Mbps , powerline over Power Plug connector
- Access Methods: Priority-based CSMA/CA channel access schemes maximize efficiency and throughput
- Quality of Service: four-level priority based connection access, and multi segment bursting
- Power : 100 ~ 240V AC 50/60Hz
- Power outlet current : 16A (Belgium outlet type)
- Max.powerline adapters in network: 16 (Up to 15 slaves with 1 master)

The EM8035 is a Starter Kit consisting of two EM8034 Powerline Adapters.

The Eminent EM8034 Powerline Adapter 500Mbps with power socket is the ideal extension of your home network. The easiest way to connect your laptop, computer, smart tv, media player and game console to your existing internet router. Suited for HD streaming.

Use powerline adapters in your home or office where you do not have sufficient wireless coverage or use them for devices with a fixed network connection. No need for difficult wireless settings. Just plug the powerline adapter in your power outlet and use the supplied networking cable to connect your device.

The Eminent EM8034 Powerline Adapter 500Mbps is compatible with 200Mbps Powerline adapters.

You will not waste a power outlet, because the EM8034 comes with an integrated socket. The noise filter blocks electrical interference ensuring the
